

# Proposals to amend the MOU

**Dave Pritchard**

UNEP/CMS/RAPTORS/MOS3/Doc.14.1

## **This presentation:**

- **MOU text**
- **MOU Annex 2 (Geographic scope)**
- **MOU Annex 3 (Action Plan)**
  - **introductory section**
  - **Table 2 (activities)**

## **Next presentation:**

- **MOU Annex 1 (species list)**
- **MOU Annex 3 (Action Plan)**
  - **Table 1 (species categories)**
  - **Table 3 (sites list)**

- **MOU has provision for amendments; Action Plan (MOU Annex 3) anticipates review & revision;**
- **Review in 2019 (MOS3 docs Inf.1 & Inf.2)**
- **Amendments being proposed to MOS by TAG (MOS3 doc 14.1)**

# The MOU text

- **Add reference (x2) to *Accipitriformes***
- **Para 8 (General conservation measures):  
rationalised to match Action Plan,  
streamlined; and refined**
- **Grammatical etc corrections**

# Geographical scope (name changes only)

Swaziland

Eswatini

The former Yugoslav Republic  
of Macedonia

North Macedonia

Turkey

Türkiye

RAPTORS  
MOU

# The Action Plan

## Introductory part, Section 4 (“Priority Actions”)

### – rationalised and streamlined to match the rest of the package of proposals

- a. legal protection of species against killing and unsustainable exploitation
- b. species population management and recovery programmes
- c. conservation and management of habitats and sites
- d. assessing and responding to threats and pressures
- e. action/integration across sectors
- f. research, monitoring and information management
- g. raising awareness
- h. strengthening capacity
- i. international cooperation.

### – wording refinements inc from TAG, and typographical corrections

# The Action Plan (cont)

## Table 2 (detailed activities)

- Document shows old table deleted, revised table inserted (track changes)
- Reorganised (to match the rest of the package), clarified, refined, streamlined, columns fleshed out.
- Input from TAG and others; inc previously missing material on indicators

## Summary

- Building on review, and experience to date
- Brought up to date, corrections made, and action details made more complete
- Much improved overall structural logic, coherence & consistency
- TAG recommends adoption by MOS

*[Note: care needed re consequential amendments if any further changes are made]*
