

# Safeguards implementation in 2016

Helping prevent the spread of nuclear weapons

## What did we achieve in 2016?

We concluded that for

✓ **69 States**  
all nuclear material remained in peaceful activities.

✓ **104 States**  
declared nuclear material remained in peaceful activities.

✓ **3 States**  
nuclear material, facilities or other items to which safeguards had been applied remained in peaceful activities.

✓ **5 States**  
nuclear material in selected facilities to which safeguards had been applied remained in peaceful activities.

## How did we get there?

### Our legal framework

**181 states** with safeguards agreements in force  
&  
**129 states** with additional protocols in force

### Our coverage

**204,073** significant quantities of nuclear material

**1,290** nuclear facilities and locations outside facilities

### Our verification process

Collected & evaluated  
**1,037,156** nuclear material reports

Conducted  
**3,007** in-field verifications

**13,275** days in the field

Verified  
**25,044 seals** installed on nuclear material, facility critical equipment or IAEA's safeguards equipment at nuclear facilities

**1,436 cameras** connected to 266 facilities

Deployed  
**1,057** non-destructive assay systems

Collected  
**474** environmental samples  
**603** nuclear material samples

Remotely monitored  
**122** facilities

### Our resources

**135 million** +40.5 million extra budgetary

**932** staff & contractors from 96 countries
